BOOK REVIEW

Aviation Subject Headings. *A concise list for civil aviation libraries or collections. Planographed. Sixty pages. January, 1949. Price, $1.75.*

This simplified subject headings list for the civil aviation field was compiled by Agnes A. Gautreaux, Librarian, Civil Aeronautics Administration, Washington, D. C., and Mary Lally, Librarian, Economic Planning Division, American Airlines, Inc., New York, New York. It is based on the "Subject Headings for the Aeronautical Index" issued by The Library of Congress in mimeographed form in 1940 and now brought up-to-date.

The list is double-spaced between items and subdivisions to allow for expansion. Symbols are used to indicate further subdivision. Effort was made to keep the list as simplified as possible, especially in regard to cross-referencing.

This list is useful for air carriers, airport executives, state and local aeronautical agencies, flight schools, aviation writers, public and university libraries with special aviation collections, and school and training personnel interested in the air education program.

As the edition is limited, send your order now. (New York City purchasers kindly add 2% City Sales Tax.)
